## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Snyders (2002/0123802 A1). Snyders discloses a titanium alloy woven mesh cuff for a mechanical heart valve (paragraph 56). It fits around the perimeter of the heart valve and inherently has an outer annular portion with a larger diameter than the inner annular rim (e.g. Fig 8). The material is the same as claimed and therefore would promote tissue ingrowth, endothelialisation, and minimize leaks and infection.
